

Year 4

Spring Term – Week 6

Mummification

Hello Year 4,
Well done for those who have already had a go at the home learning activities on Purple Mash! Don't panic if you haven't yet these are still there for you to try out. Thank you for the emails and I hope your enjoying emailing each other. Keep safe Mrs Swanney x

Be Awesome, Shine Bright!

Mathematics

Over the duration of the week we would be exploring 2D shape and position. Please find the learning outcomes below.

- Use a variety of sorting diagrams to compare and classify numbers and geometric shapes including quadrilaterals and triangles based on their properties and sizes. (2Do set sorting shapes)
- Identify horizontal and vertical lines and pairs of perpendicular and parallel lines (2Do set)
- Identify acute and obtuse angles and compare and order angles. (2Do set)
- Identify lines of symmetry in 2D shapes (2Do set)

In addition to these objectives I have set some revision activities linked to multiplication and division.

English

In English, we would be exploring non-fiction texts based on the Egyptians. We would be exploring the following learning outcomes:

- Generate research questions.
- Conduct research using a range of appropriate skills.
- Make notes effectively.
- Plan, prepare and deliver a formal presentation. (This could be a Powerpoint presentation or be done on Purple Mash which I have set as a 2do)

Independent write

Describe the life of an Ancient Egyptian. What is it like in the luxury palace of a Pharaoh? Use noun phrases to describe. Don't forget complex sentences, commas for clauses, fronted adverbials to open sentences and adverbs.

Reading

If you have finished your reading book, don't worry. On Purple Mash I have set an online book for the children to read linked to our topic. Once each chapter is finished there are some reading comprehension questions to answer. These are multiple choice.

Science

In this week's science lesson, we would be exploring water resistance. You can explore water resistance at home in the bath, observing how different objects move on and in the water.

Creative Curriculum

History

In History we would be continuing to explore the Ancient Egyptians, this week we would have been exploring the ways in which the Ancient Egyptians used the river Nile – Purple Mash.

Art

Through Art lessons we would be drawing focusing on pyramids.

Spanish

In Spanish, we would be continuing to explore food on Purple Mash. You could also relook at your numbers and colours as these are continually used in the topics

Computing

In Computing, we would be continuing to explore databases and we set up our own Class database in our last lesson. Create your Purple Mash avatar so it looks like you, then access to database, find yourself and answer to questions in the database. I have set this week's task on PurpleMash, it can be found under 'To do's'.

Religious Education

In RE we would be exploring the Easter story further. If the Easter story was written in the Bible as a comic strip what words would be in the thought and speech bubbles? You can draw these on the paper we put in your purple folder or I have set 2 templates which can be used on Purple Mash

P.S.H.E

What life skills could the children be taught this week?

Could children be taught basic first aid?
